

## NEW RECORD FOR MARATHON

Demar Lowers Longboat's Time for 25 Mile Race

TIME, 2 HOURS, 21 MINUTES

Dorchester, Mass., Boy First in Classic Boston Run on Patriots' Day—A Great Race on an Ideal Day.

Boston, April 20.—A young but experienced runner from old Dorchester, Clarence Demar of the North Dorchester Athletic association, won the 15th annual Marathon run of the Boston Athletic association yesterday, covering the 25 miles over the rolling road from Ashland to this city in the record breaking time of two hours, 21 minutes 39.5 seconds.

The former time, made four years ago by Tom Longboat, the Canadian Indian, was two hours, 24 minutes, 24 seconds.

Fred J. Madden of South Boston, was a poor second by reason of an accident two miles from the finish.

Next came Fabre of Montreal, while Robert J. Fowler of Cambridge, another old timer, was fourth.

Demar ran a well judged race, for he did not become a factor among the leaders until more than a third of the course had been run.

He was indebted to Alexis Abigren of New York for setting a lively pace for the first 12 miles and then as the field swung into the boulevard at Auburndale, he rushed and challenged Madden, who was leading at that time, and finally pushed out in front.

In spite of two big hills, Demar not only drew steadily away, but hit up the pace so that he captured former records at minor points along the home stretch, notably that at Brookline, held for 10 years by Caffrey. There were times along these crowded stretches to the finish, when Demar seemed exhausted, but careful handling freshened him up and he gained steadily on Madden in the last few miles.

The South Boston runner was dashing past Coolidge Corner, two miles from the finish, when an automobile seeking to pass him nearly knocked him into the gutter. He recovered in time to save being passed by Fabre, the leading Canadian, who was coming up rapidly.

Demar received a great ovation as he staggered across the finish in a much exhausted condition.

The times of the four principal prize winners in the race were as follows: Clarence Demar, North Dorchester, 2:21:39.5.

F. J. Madden, South Boston, 3:24:31. Ed. Fabre, Montreal, 2:29:22.1-5. Robert J. Fowler, Cambridge, 2:29:31.

The next 15 finished as follows: R. F. Pigott, Medford; Daniel Sheridan, Toronto; Albert Harrop, Fall River; F. H. Galvin, New York; M. J. Ryan, New York; J. M. Jordan, Cambridge; James Cleary, Worcester; A. J. Sturgis, Boston; E. W. McTiernan, Worcester; Clifton Herne, Haverhill; C. H. Appleyard, Yonkers, N. Y.; Andrew Speakeless, Oldtown, Me.; A. H. Ellis, Brookline; George Gaskill, Fall River; S. W. Root, Philadelphia; H. F. Maguire, Providence.

Two runs of spectators, numbering more than 100,000 people, gathered on the long road stretching out of the city to witness a hundred yards or so of the race.

The day was ideal for a long distance run, for a light wind blew down the long course from the westward, while the air had just enough chill in it for outdoor exercise.

### Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root.

Including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## SEPARATION OF CHURCH AND STATE DECREED

Portugal Will Formally Promulgate It Tomorrow.—Under It State Censor Entire Liberty to All Creeds.

Lisbon, April 20.—The cabinet made the final draft of the decree of separation regarding the church and state and it will be promulgated on Friday or Saturday. The main points of the decree are:

The state concedes entire liberty of all creeds, the Catholic creed ceasing to be the state religion from the date of the promulgation. Henceforth all churches will be maintained by the faithful. The benefited clergy will continue to receive their stipends until July 1, after which they will be paid pensions.

The property necessary to the celebration of public worship will be ceded to the clergy free of cost. All the Portuguese and foreign clergy engaged in religious work will continue as hitherto, but all others must obtain authorization. All the religious property which is proved to belong to private individuals, either Portuguese or foreign, will be respected. British and other foreign seminaries will be allowed to remain, but those connected with the seminaries will not be allowed in the streets in clerical garb.

As the Catholics will no longer be the state religion, priests may marry. In case of death, pensions will revert to the parents, widow or children.

## HEARING AT PROVIDENCE.

New Haven and Grand Trunk Representatives Argue.

Providence, R. I., April 20.—The controversy over the effort of the Grand Trunk railway to obtain legislation to enable it to cross the tracks of its rival, the New York, New Haven & Hartford railroad, in order to reach a tidal water terminal in this city, was continued in a hearing before the house committee on corporations yesterday.

The vice-presidents of the two roads and counsel and representatives of the city of Providence argued over the matter. Vice-President E. G. Buckland of the New Haven road making strenuous objections to the Grand Trunk's plan and offering other solutions of the difficulty, which Vice-President E. H. Fitzhugh of the Grand Trunk declined to accept.

Vice-President Buckland gave as his principal objection to the Grand Trunk crossing the tracks at one of the points that a sewer ran under the tracks at this place and it would not stand the increased traffic. The New Haven road, he said, would cooperate in other ways, such as bridging, tunneling, or switching the Grand Trunk's cars.

City Solicitor A. A. Baker of Providence held the city wanted to see the New Haven allow the Grand Trunk the use of its tracks and that the New Haven should extend its track, if necessary, for the benefit of its rival. Vice-President Buckland replied that the New Haven road would never agree to that proposition.

The hearing was continued yesterday afternoon.

## PATRIOTS' DAY.

Massachusetts Pays Tribute to the Embattled Farmers.

Boston, April 20.—Patriotic exercises interspersed with athletic events, marked the celebration of Patriots' day about Boston yesterday.

On Lexington green, where 136 years ago, the first band of patriots was assembled, parades occurred of patriotic companies of the town dressed in the uniform of the fearless Minute men.

In Concord, a parade of the Massachusetts division of the Boy's brigade honored the farmer-soldier of bygone days, while in Boston, descendants of the early fighters met at the old South meeting house during the morning, later joining other societies in exercises commemorating the first blow for American independence.

The day started with bright sunshine, the raw wind of the past three days being less penetrating, so that the more enjoyable part of the celebration was out doors.

## HIS TWENTIETH.

And John White Has Been Married Twenty-Four Years.

Wakefield, Mass., April 19.—When John White of this town, was informed yesterday, that a daughter had been born to him, he experienced for the twentieth time in his twenty-four years of married life a thrill of paternal pride.

Mrs. White, the mother of the twenty children, sixteen of whom are living, is about forty-five years of age. Her children have included three sets of twins.

White is employed by the town of Wakefield. Both he and his wife were born in Canada of French ancestry. Every evening, when he returns from work, White has a regular military roll call at which his children are expected to be present and answer to their names.

## DEMOCRATS' FREE LIST BILL

It Will Cut Revenue by \$10,000,000 a Year

ITS ADVANTAGES TOLD OF

Report Says It Will Mean Great Saving to the People—Bearing on Cost of Living—Reciprocity Not Enough.

Washington, April 20.—The majority report of the ways and means committee on the so-called farmer's free list bill, submitted to the House yesterday by Chairman Underwood, is a merger of Democratic political argument and an analysis of the proposed duty exemptions.

The report shows that the bill would reduce the tariff revenue \$10,016,485, based on the importations for the last fiscal year, an amount described as "inconsiderable in comparison with the great saving and advantages to all of our people from the additions to the free list provided for."

Quoting President Taft's recent Canadian reciprocity speeches, the report seeks to convey the impression that the administration is convinced that the protective tariff rates are too high.

Referring to the president's statement that the Republican party had modified its tariff policy so as to limit it for purposes of protection to the difference in cost of production here and abroad with a reasonable profit to the American producer, the committee report says:

"This is a confession, as was the Republican platform of 1908 that the theory of high protective duties, as put forth by the Republican party, has broken down, that combinations and trusts which prey upon the people have been fostered by the tariff and that under high tariff protection American manufacturers have forced unreasonable profits from the people."

Again the report declares: "The Canadian reciprocity agreement now before the House is a recognition of the injurious effects of the extreme protective policy which has so long been imposed upon the country and is an effort to mitigate its effects."

"Action on the agreement involves the necessity of further and immediate action in removing a number of duties on imports from other countries in order that justice may be done to the great many agricultural producers, who, in the Canadian agreement, are to have all the alleged protection removed from their products without a corresponding reciprocal removal of the protective duties most burdensome on the commodities they must purchase as necessary to sustain their lives and industries."

The report takes up in detail the classified list of articles included in the free list bill. Regarding agricultural implements it says their manufacture is controlled by trusts and combinations that have sold in foreign countries at lower prices than at home, building up the foreign trade from \$1,895,184 in 1900 to \$28,124,033 in 1910.

Bagging and baling materials, essential in the transportation of agricultural products, the report says, cannot receive benefits of protection in home markets and duties on them "have annoyed and burdened the farmers to the profits of exacting trusts and combinations."

Concerning hoops, bands and ties of iron and steel, barbed wire for fencing, etc., the report says the high duties make the people dependent upon the "giant steel industry" which for years has sold products abroad lower than to domestic consumers, and declares that placing them on the free list will be "a long delayed measure of equality and justice."

The placing on the free list of all forms of leather from cattle hides and skins, together with hoots and shoes, harness, saddlery, etc., the committee argues, will be of advantage in manufacturing and necessarily of benefit to agricultural producers, as well as to all the people.

The "beef trust" is assailed in discussion of the free listing of fresh meats and meat products. Removal of duties on these products, it is argued, will place the farmers in a free market as to foodstuffs and food products.

For the reason that the public desires "that no artificial shelter shall be maintained to protect abnormally high prices on food articles in any form," the bill seeks exemption from duty of wheat, flour, rice, buckwheat flour, corn meal and all prepared cereal foods, biscuits, bread and similar articles not sweetened.

In discussing free lumber placed in the bill, hard wood excepted, the report maintains that the ownership of timber in this country has become practically a monopoly and has passed for the most part into the hands of great corporations and interests which are speculating on the increasing scarcity.

President Taft is again referred to.

## Eczema Cure a Beauty Wash

Although D. D. D. Prescription has been recognized for years as the one remedy for eczema, psoriasis, and all other forms of skin diseases, it is now known that there is no other wash, even those used by the beauty specialists, that compare with this mild, safe and effective remedy for the skin.

For this reason alone, a bottle of D. D. D. should be kept on hand in every household. A trial 25c bottle will show you the merits of this great remedy as a complexion wash.

D. D. D. seems to remove the cause, whatever the trouble may be, cleansing the skin and leaving it as soft, as smooth and clear as that of a healthy child.

Get a 25c bottle to-day and keep it in the house.

Burt H. Wells, 160 North Main street, Barre, Vt.

Thin people are simply suffering from want of nourishment!

If you are thin, it is because the food you eat is not assimilated and passes through the system without building up the flesh tissue as it should.

You can readily get plump and rosy by using Samose, a tissue forming food which, when taken with the meals, immediately becomes a flesh building and life giving element in the blood.

Use Samose for a few days and increases of life, vigor and weight is felt and you will notice yourself getting plump and rosy.

D. F. Davis is introducing Samose to his customers and recommends it highly. He gives the best proof of his belief that Samose will do all that is claimed for it, by offering to refund the money if it fails to increase the weight and restore good health.

## SUNNY MONDAY

There is not an ounce of rosin in Sunny Monday Laundry Soap. Rosin is used in all other laundry soaps—because it is cheaper than the fats and oils used in Sunny Monday. Sunny Monday costs more to manufacture than any other laundry soap of which we know. It is kind to clothes—will not shrink flannels or woollens, or turn clothes yellow.

Sunny Monday is just as pure as its whiteness indicates; it is the safest and most economical laundry soap you can use.

THE N. K. FAIRBANK COMPANY CHICAGO

the report quoting his speech of Feb. 26, 1911, in which he said: "By giving our own people access to Canadian forests we shall reduce the consumption of our own, which, in the hands of a comparatively few owners, now have a value that requires the enlargement of our available timber resources."

Sewing machines, the report avers, are sold abroad by American manufacturers cheaper than at home and should not be protected. The manufacturers would have by the proposed bill the additional advantage of free lumber.

Salt, also included in the free list, the report urges, should be free from artificial enhancement in price, the domestic supply being dependent upon a limited number of natural deposits controlled by concentrated interests.

CANNON ATTACKS RECIPROCITY BILL

Declares It Violates Constitution, and Should Have Been in Form of a Treaty.

Washington, April 20.—Armed with the constitution, and pleading for the rights of a downtrodden minority, former Speaker Cannon yesterday took the floor in the House to thunder against

Copyright, 1904, by J. E. Purdy, Boston. JOSEPH CANNON.

Canadian reciprocity and the policy of the Taft administration with reference thereto. This is the first time in nearly forty years of congressional service that "Uncle Joe" has "insured" against a Republican president; and it is significant that on this occasion he was greeted with the applause of Republicans who for two years had been "insuring" against him as president officer.

The former speaker declared that the reciprocity agreement is the most important piece of legislation considered since the Spanish war; that it violates the constitution in two particulars, and that it is a bad bill generally. His constitutional objections were that it did not originate in the House of Representatives, but with the president, and that it should have been presented in the shape of a treaty requiring the ratification of two-thirds of the Senate. Then he proceeded to attack the measure on its merits.

Democratic insurgency against the reciprocity program had its innings when Representative Gudgeon of North Carolina, one of the six avowed Democratic opponents of the agreement, replied to the recent speech of Representative Kitchen, also of the Tar Heel state—who he charged with marching side by side with the enemy. Gudgeon asserted that reciprocity was not a Democratic but a Republican policy. He was given an opportunity to make the speech by Chairman Underwood, but he received applause only from the Republican side.

The six Democratic insurgents say that their strength will be increased to nine or ten against reciprocity when the final vote is reached.

THIN FOLKS MADE PLUMP

Samose Ideal Flesh Builder Says Druggist D. F. Davis.

## POOR NEW YORK STATE

To Ask Dollar Contributions to Rebuild Capital

NO MONEY AVAILABLE

Governor Dix Says He Believes Loyal Citizens of New York Will Respond Readily to Such a Call on Behalf of the State.

New York, April 20.—"It is probable that an appeal may go forth to the loyal citizens of this state asking for \$1 from each inhabitant," said Governor Dix last night, in addressing the Albany society and referring to the need of money to rebuild the burned portion of the state capitol, to replace the library and elect a public state educational building.

"I am confident," continued the governor, "that it will meet with a ready response."

Appropriations for the rebuilding of the capitol and restoration of the library were not included in the last budget, and the governor said money for the work must be raised.

Three hundred Albanians attended the annual dinner of the society last night and spoke and sang to the praises of the capitol city. Charles T. Terry, president of the society, presided and in addition to the governor, Mayor James B. McEwan of Albany, William Barnes, jr., and a number of other widely known men were present.

SPEYER TO BE DIRECTOR.

His Banking House Will Finance the Missouri Pacific Railroad.

New York, April 20.—James Speyer will to-day take the place of Paul M. Warburg, resigned, in the directorate of the Missouri Pacific railway and the house of Speyer and company, closely allied with the Deutsche bank, will fill the vacancy left by the retirement of Kuhn, Loeb & company as bankers for the road.

Mr. Speyer admitted this much to friends yesterday but he could not talk for publication, he said, until after his formal election.

Frank T. Gates, representing John D. Rockefeller on the Missouri Pacific board, Edgar L. Marston, representing Blair and company, and Edward D. Adams, representing the Deutsche bank, all decided yesterday to keep their positions. The same interests have worked harmoniously in the past and the supposition in Wall street yesterday that they had taken their lead from Mr. Rockefeller, who, as the second largest stockholder in the property and a commanding influence in the banking community, may now be said to control its financial policy.

Mr. Gates said yesterday that the Rockefeller interests were "entirely friendly" to George J. Gould, who, with Mr. Rockefeller's aid, dictated the nomination of the newly elected president, B. F. Bush.

"A SINGLE WORD WILL COMMAND."

Congressman's Letter Framed and Hung in Gambling Club.

New York, April 20.—The raiding force of Deputy Police Commissioner Flynn descended last night upon the well known Deepsea club of the East side, and in addition to the arrests and the seizure of paraphernalia, the officers came away with a typewritten letter in a gilt frame bearing what purported to be the signature of former Congressman T. D. Sullivan, now a state senator.

The letter was written from the House of Representatives at Washington April 30, 1903, thanking the club for an election to life membership and adding:

"Should it be possible for me at any time to serve you or any member of the club, I shall be glad to do so. A single word will command."

The club is well known as a resort for politicians, but the police say the 13 men they arrested out of the 275 persons in the room are gamblers for whom warrants had been issued.

Five gamblers out of a horde that had been gathered in recently by the dragnet of Commissioner Flynn, threw themselves upon the mercy of Judge Rosalsky in the court of general sessions yesterday and were permitted to go under suspended sentences. They pleaded guilty and promised hereafter to abstain from gambling in this city.

Judge Rosalsky in letting the offenders off easily, informed them that three years in Sing Sing and a fine of \$1,000 stared them in the face if they were again brought before him. Also, he said, they must report to Commissioner Flynn whenever he desires and submit to being photographed in the police records.

It is believed a majority of the hundred others under indictment, all of whom were in court yesterday, will plead guilty and be permitted to go under suspended sentences. It was said by a number of them that New York no longer is a mecca for the craft.

OLD FIGHT RENEWED.

Mrs. Scott and Mrs. Story in Contest for D. A. R. Presidency.

Washington, April 20.—On the eve of the election of president-general and other national officers of the Daughters of the American Revolution, the center of activity among the delegates to the congress of the society shifted last night from Continental hall to the hotels where the delegates are staying. Merely a handful of daughters were in the auditorium of Continental hall last night to hear reports from minor committees. Most of the delegates were trying to win votes for their respective candidates.

Supporters of Mrs. Matthew T. Scott of Illinois, who won two years ago by a narrow margin over Mrs. William G. Story of New York and of Mrs. Story who is again a candidate, claim enough votes to elect their candidate.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVES' signature is on each box. 25c.
